Reply to Sunday School Circular.

Sir, The C. of y S.S.S. has been duly received, and it is with great p. that I reply to it — making my communication, for your sake, as brief as possible.

The number of children now in our S. is 119. The n. of Teachers 21. The no. of Volumes in our Library is about 330, ~~not~~ carefully selected, and highly appreciated by y children. You are not in need of testimony to y value of regular ~~well attended~~ meetings of Teachers, y whole time of which is faithfully given to y interests of y Sunday School. Still we desire never to be backward in y expression of our belief of their importance, even way their necessity, [in order] to an efficient and satisfactory discharge of each individual's duties to his or her class, and to y cause.

The official adm. of our School is not essentially diff. from that with wh. you are well acq.td. We have lately ~~created~~ ? created ~~a new office~~ an new office — that of Female Sup't. ~~The~~ The Lady chosen to fill y office is also one of y Teachers. Her duties, as a Sup., are wholly external to y School, & consist in visiting y families of ~~those~~ who do, or who ought, to, send their children to y School. It will be readily seen that there are

occasions when a ~~lady taught~~ visit from a lady would be acceptable & successful, & where a gentleman would fail of both.

With regard to 4 Quer. you propose as to 4 supply of a Suff. no. of Teachers, and retaining children in 4 school longer than 4 now 4 case generally, I can only state my conviction that no other means can be relied on to effect these two objects, as introducing, to a with perhaps a few alterations, 4 systematic method & course of instruction pursued in 4 Brattle St. S.S.

We are happy to be able to state, in reply to your suggestions at 4 close of your circular that we have made an engagement, in March last, with Mr. G. B. K. to give instruction in singing to 4 children of our S.
